DETAILED ACTION

This action responds to the Amendment filed 24 March 2005.

Information Disclosure Statement

The information disclosure statement filed 13 October 2004 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because some of the references have not been provided with dates in accordance with 37 CFR 1.98(b)(5). Also the MPEP 609 states,

“Each publication must be identified by publisher, author (if any), title, relevant pages of the publication, and **date** and place of publication. The date of publication supplied must include at least the **month and year** of publication, except that **the year of publication (without the month) will be accepted if the applicant points out in the information disclosure statement that the year of publication is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the particular month of publication is not in issue.**” (Emphasis added.)

The IDS has been placed in the application file, but only the references initialed by Examiner have been considered. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 19 is rejected under 35 U.S.C. 102(b) as being anticipated by US 3,655,679 (**Shen** et al.).

Shen discloses 5-nitro-2-(o-, m-, and p-trifluoromethylphenyl)pyridines at col. 27, line 23. This reads on compound labeled “2-d” in claim 19.

Claim 19 is rejected under 35 U.S.C. 102(b) as being anticipated by US 3,718,488 (**Trofimenko** et al.).

Trofimenko discloses various substituted phenylpyridines compounds as formula IV (col. 2, lines 1-10). Substituent labeled “X_p” on the phenyl group is lower alkyl, lower alkoxy, F, Br, or Cl, where p is 0 or 1, and accordingly corresponds to the substituents R₅-R₈ of instant claim 19’s formula (II). Substituent labeled “X_m” on the pyridine ring is lower alkyl, lower alkoxy, or phenyl, where m is 0, 1, or 2, and corresponds to substituents R₁-R₄ of instant claim 19’s formula (II). (See col. 2, lines 29-36.) Accordingly, formula IV reads on compound labeled 2-g.

Response to Arguments

Applicant's arguments with respect to claim 19 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
